Nobel Sport

ITALIA

WHO WE ARE

Nobel Sport Italia (NSI) is among the world leaders in the production and distribution of shotgun ammunition and shot shell loading components.

A subsidiary of the Sofisport Group, Nobel Sport Italia is a vertically-integrated manufacturer of all of our components, allowing for full control over our R&D, quality control, product development and customer support.

NSI crafts approximately 120 million shot shells annually which are sold worldwide and distributes approximately 300 tons of powders each year.

WHERE WE COME FROM

Nobel Sport Italia is born of the heritage of the Italian artisan company, Maionchi, remembered to this day as synonymous with excellence and deep tradition.

Acquired by the Sofisport Group in 1993, we remain firmly rooted to our origins to such an extent that this noble heritage is an inseparable part of our DNA and reflects in all that we do.

OUR VALUES

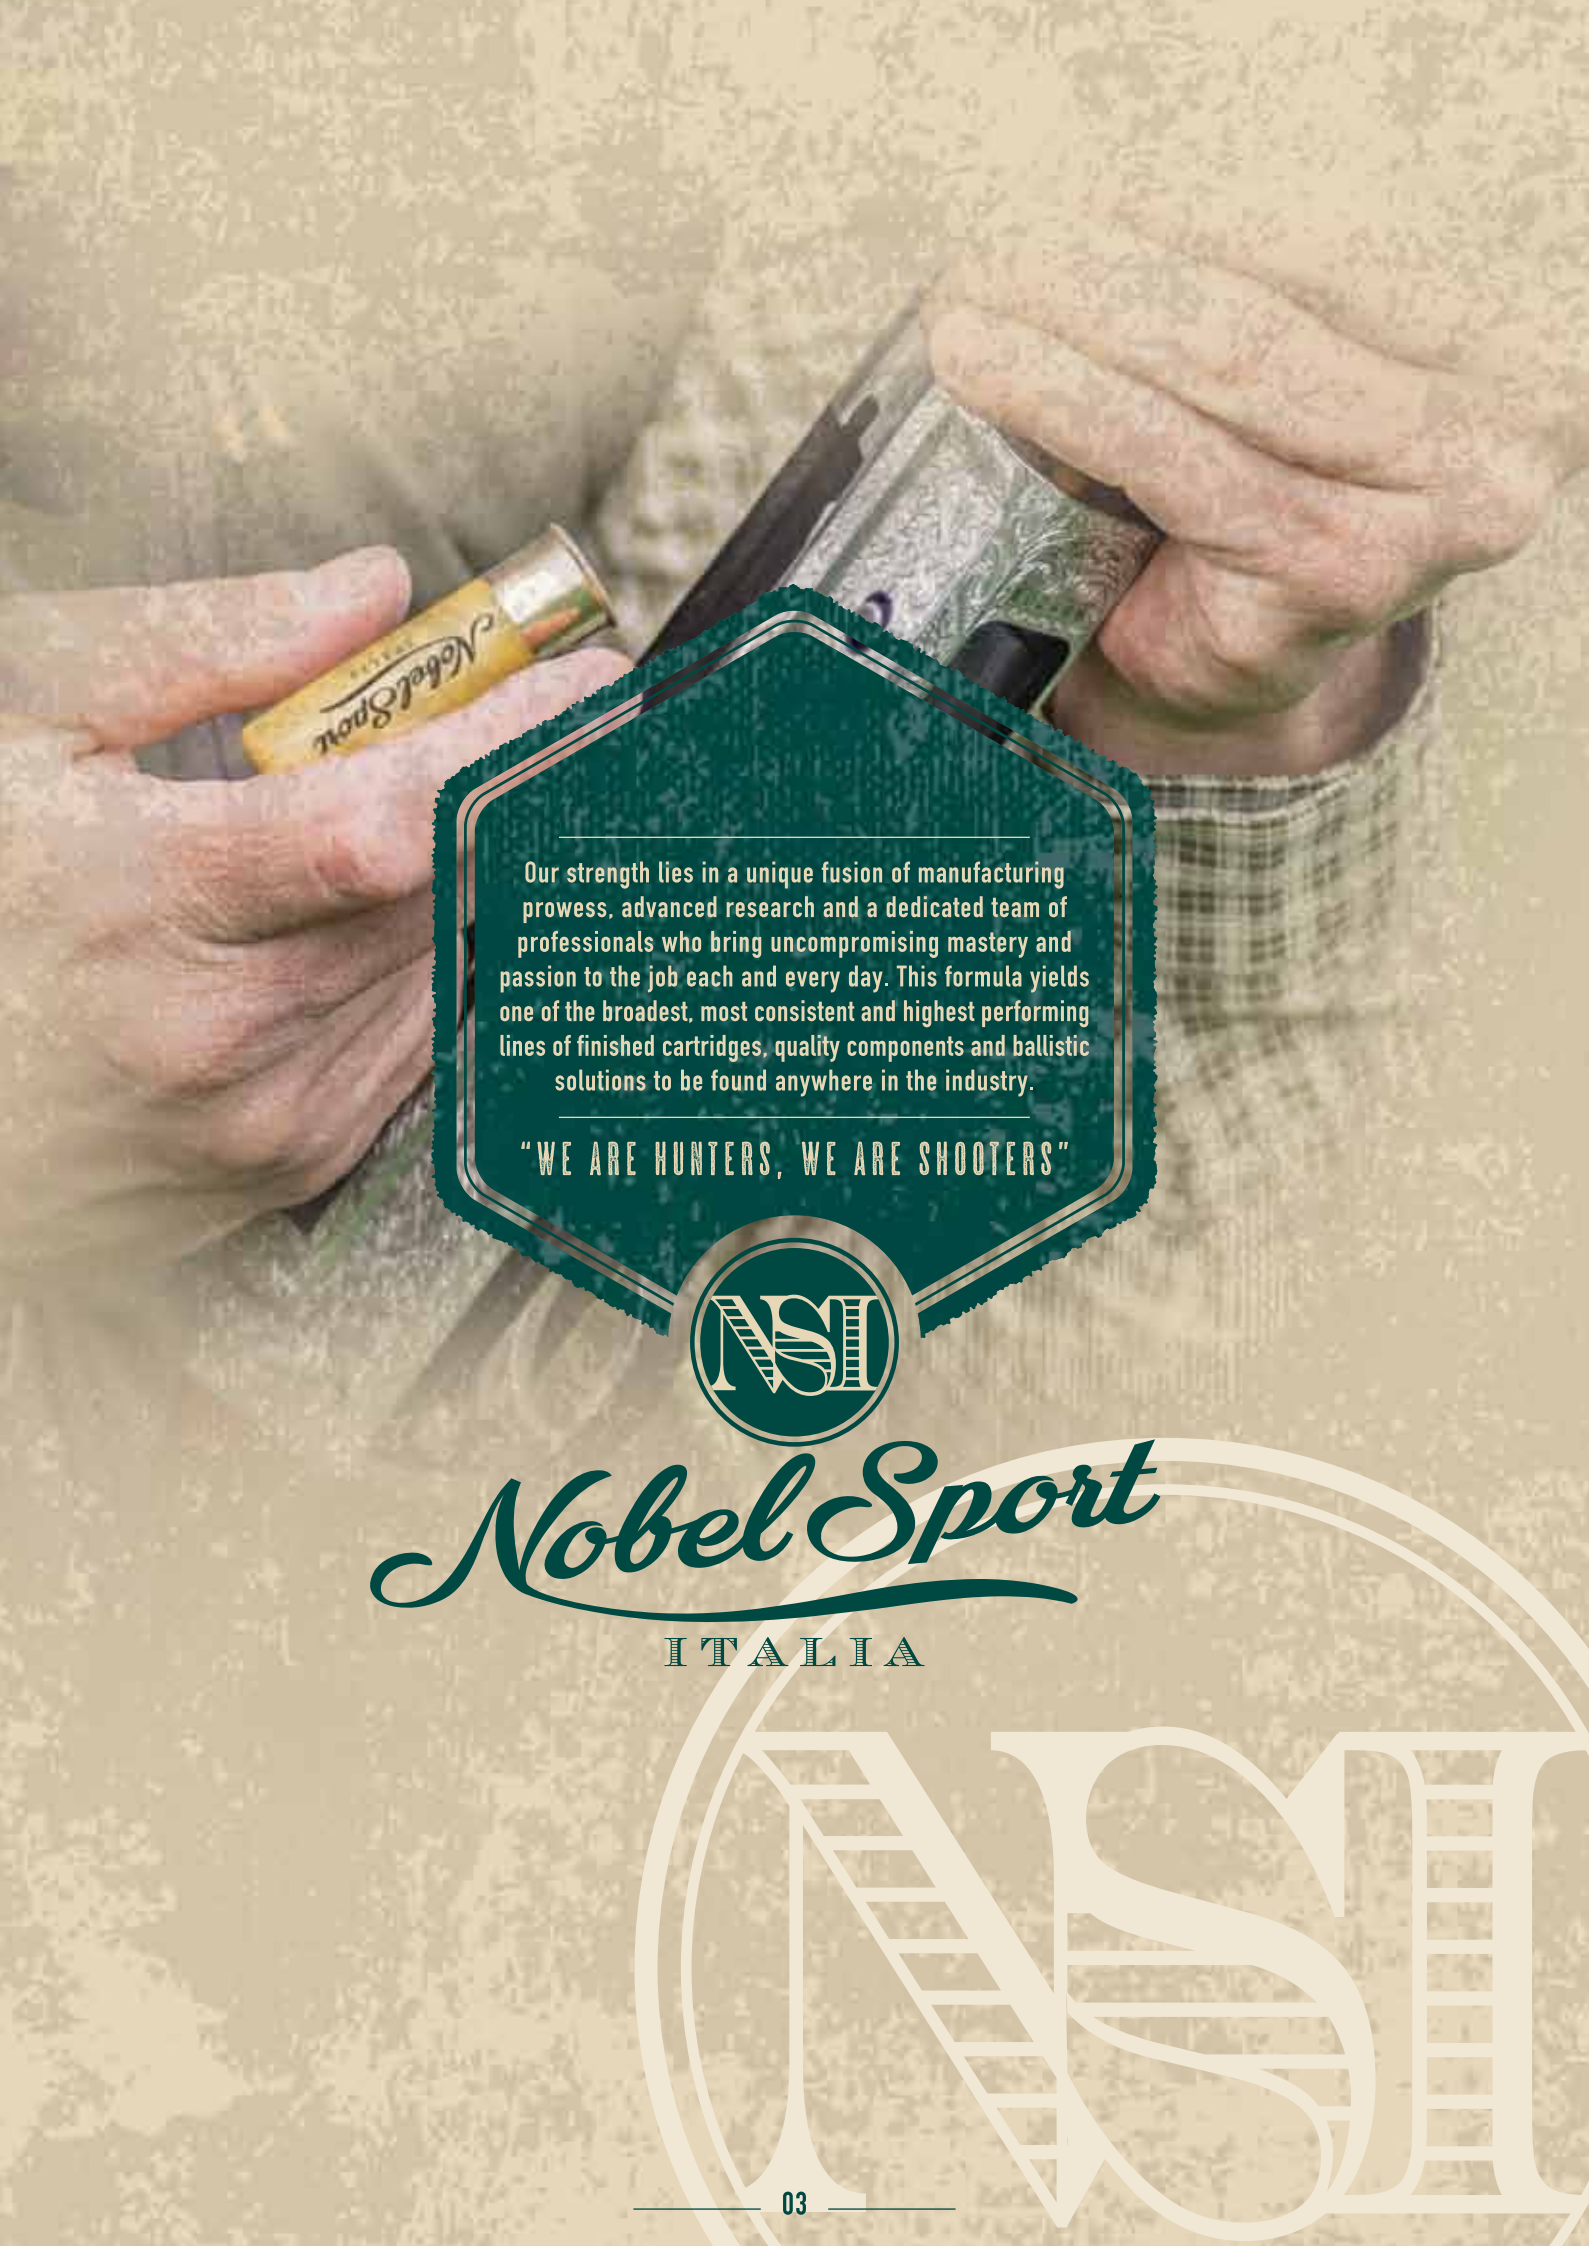

HUMILITY: we listen to our people and our customers, and we challenge our ideas every day.

AMBITION: we won't accept second best and we strive for excellence above all.

TEAM WORK: we believe that our power derives from our people and our excellence comes from our diversity of thought and the sharing of ideas.

Each day, we bring our very best efforts forward to offer hunting and sport-shooting enthusiasts lasting memories based in sportsmanship and trust.

We achieve this in leading by example to enhance your experiences with high performance products that inspire confidence at every level whether in the field or at the range.

A close-up photograph of a person's hands. The left hand holds a yellow and silver NobelSport rifle cartridge. The right hand is positioned on the receiver of a rifle, which is partially visible. The background is a textured, light-colored surface.

Our strength lies in a unique fusion of manufacturing prowess, advanced research and a dedicated team of professionals who bring uncompromising mastery and passion to the job each and every day. This formula yields one of the broadest, most consistent and highest performing lines of finished cartridges, quality components and ballistic solutions to be found anywhere in the industry.

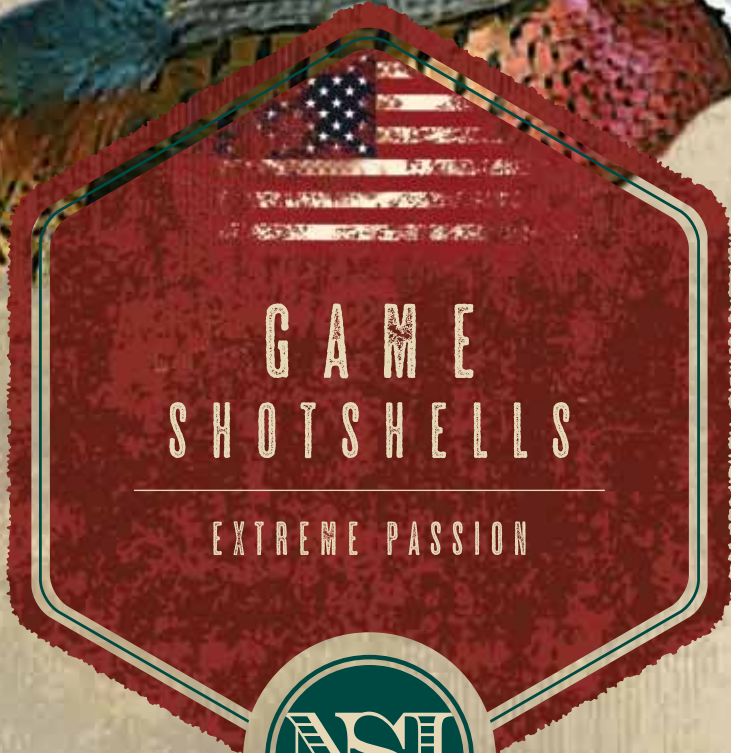

"WE ARE HUNTERS, WE ARE SHOOTERS"

Nobel Sport

ITALIA

Nobel Sport

ITALIA

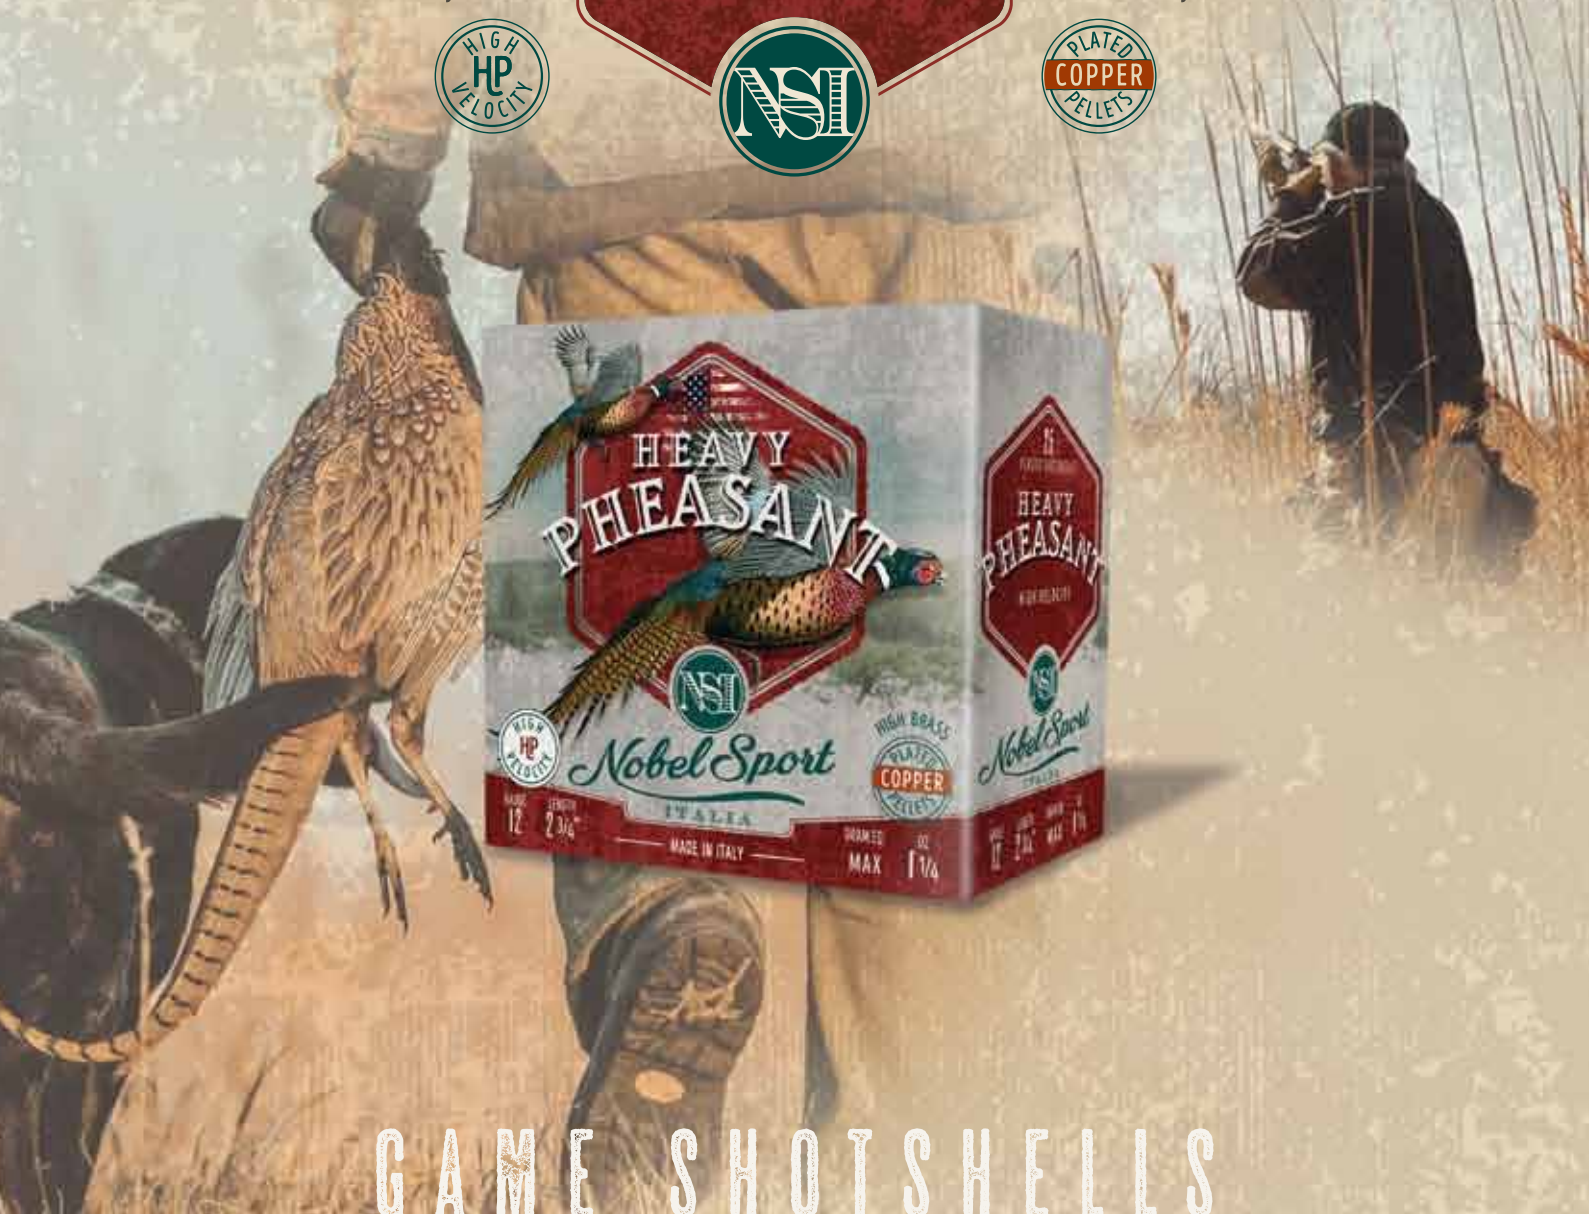

Nobel Sport is proud to offer a broad array of capable hunting loads developed specifically for North American upland game and wing shooting. Whether you're flushing pheasant in the Dakotas, busting brush for Canadian grouse or walking with friends in a southern field chasing dove and quail, you can bet we have the right cartridge for your gun and hunting style.

Cool weather in the Midwest signals the beginning of the pheasant harvest. There are usually few opportunities to shoot, the shot is almost always a surprise, and you don't want your ammo choice to let you down.

HEAVY PHEASANT

The discerning pheasant hunter wants a premium copper-plated shot for humane harvesting and less cripples. Nobel Sport offers you such a high speed versatile cartridge for the toughest of late season birds and even Turkey.

Whether on the hunt, at a 3-gun competition, or even a defensive situation, Nobel Sport offers a selection of advanced high-performance Buckshot loads to give you the advantage. Due to their high kinetic energy transfer and payload weight, our buckshot offer unrivaled

BUCKSHOT

knockdown power and confidence. This makes them a superb choice for larger game such as whitetail and even wild boar. The consistent pattern of our Buckshot loads mean maximum mass on target translating into ultimate stopping power.

Sub-gauge shooting represents one of the greatest challenges in shotgun sports. Lighter payloads mean smaller and less-forgiving patterns. If you shoot sub-gauge then you know that you can't leave anything to chance.

SMALL GAUGES

particularly your ammo. Whether you prefer 28-Gauge or .410 bore, Nobel Sport rises to the challenge with a range of small gauge shotshells developed for both small game as well as clay target competition.

Sub-gauge shooting represents one of the greatest challenges in shotgun sports. Lighter payloads mean smaller and less-forgiving patterns. If you shoot sub-gauge then you know that you can't leave anything to chance.

SMALL GAUGES

particularly your ammo. Whether you prefer 28-Gauge or .410 bore, Nobel Sport rises to the challenge with a range of small gauge shotshells developed for both small game as well as clay target competition.

TARGET SHOTSHELLS

MADE IN ITALY

	CODE	GAUGE	BRASS	OZ of shot	SHOT #	VELOCITY - FPS	DRAM EQ.	25/250
